

What People Say

Martha,

I was talking to my husband about the house I wanted to buy and I actually feel relieved! So again, many thanks for jumping in and saving the day. I have regained some balance and composure and I am optimistic about the future. Pretty amazing how the symphony plays out. It was a pleasure meeting you today. :)

Hi Martha,

I have been thinking all day about my recent phone session with you and I wanted you to know that I am still processing it all. I definitely get a "glow" after a reading like this. You are a sweet and sincere lady and I feel like we have a connection, perhaps from another time or place?

Of all the NDE accounts, not many stand out, but yours is one that really blesses me. You truly have a gift for empathizing with people and understanding how to read them.

I am working on connecting with that woman in spirit that we both felt could be my great grandmother. I get a warmth all over when I start talking to her, hmmm. This could be interesting!

Thanks again, Martha, for your time and for the wonderful reading! I will process this and think about other questions I may have for another reading soon!

I have really been touched by your kindnesses also and I look forward to talking with you again, soon!

Hi Martha,

Wow, you did it again! When you said my checkbook would be in my purse, I didn't think so, since I already looked carefully there.

Yet, there it was. I found it tucked away in a side pocket for safekeeping. It may seem like a no-brainer, but I rarely carry my checkbook in my purse, so this surprised me. Thanks once again for helping me locate a seemingly lost and important item.

You saved me,

Hi Martha,

Martha,

You have been on my mind since our wonderful session yesterday. I really loved experiencing your gift and I felt such insight, clarity, confirmation and joy from the reading.

You have such a lovely way of relating and expressing from your richly loving heart. I was very touched by several of the issues that came up and they stayed with me all day, like an angel sitting on my shoulder; very tangible.

I also feel today that I am feeling an opening and deeper clarity about my current life, vision, and soul work. I am seeing how they all overlap and are here now, functioning in this dimension. I know the insights are directly related to the reading from you. I will be excited to get the tape of my session to listen again on a deeper level.

I will greatly look forward to recommending you to friends whenever the opportunity presents itself.

Hi Martha,

First, a big THANK YOU! This is some very, very good work you have done. I appreciate it very much. What you said feels right on the mark!

Hi Martha,

The vet told us that it was likely his spleen causing the issue; you are so right. Thank you, thank you, thank you so much.. We also felt that it would not be so serious.

Will keep you informed.

Hi Martha,

Well, you were right about that situation. I am ready to move on and work on me and my happiness.

Hi Martha!

Thank you so much for the session today. I am still very amazed by your clear vision of the yellow sunflowers that came from Missy as a greeting to me and the fact that you had no knowledge that those were exactly the same flowers that I put on her grave! Amazing! Hearing all of the wonderful messages from spirit and Missy, through you, was wonderful and reassuring. For me, the flowers were a HUGE confirmation that Missy sees me and is actively involved in spirit life and in visitation. And of course, it was beautiful sentiment and imagery of my beloved pup.

It turned out to be really awesome. You also said that you felt like this reading would be different from the others. Well, I didn't mention it either (for time's sake), but before you called, I prayed and asked my guides and angels to come in, and I asked for Missy, and the angels that have charge over Missy, to bring Missy through for us. I also asked my guides to come in and assist and for you and both of our guides and angels to work well together. It all happened! Thanks again, dear one!

Lots of love,

James :-)

Martha,

When I came to you, my life was full of apprehension and fear. I didn't know which way to turn. Yet, after speaking with you I finally found peace, resolve, direction, confidence, and positivity. Mostly, now I can at last FEEL that God is constantly unconditionally loving toward ALL all of us and that includes me. And that this is forever. Always. No matter what. And, no matter when.

I always "knew" this, but I had a difficult time "feeling" it. Somehow I forgot, but you reminded me and remedied all my doubts helping me to reach a higher awareness intellectually, as well as emotionally and spiritually. Your words provided insight, wisdom, encouragement, enormous genuine assistance, and the Light's truth. So, I am so happy and grateful that I did end up opening myself to the healing you inspired and really offered.

I insist that others trust you fully too, coming to you with an open heart and mind, because you've been blessed with a gift of service that is surely good, holy, and utterly effective. Thank you, Martha.

God bless you always!

I just wanted to say a big thank you AGAIN for everything, Martha! You helped a whole lot!! I really appreciate all of the time you spent, even going over time. And your being patient with me. I am so grateful to you and that we met! All of my love to you, Martha!

I just finished my first session with Martha; she was AMAZING and right on target. Martha is easy to understand and works with you in the direction that you want to go. She described my personality to a "T" and also brought through a loved one that had recently passed. Martha's energy is steady and calm and it felt as though I had known her for a life time. I am sure we will connect again very soon.

Hello Martha,

Next time I decide to hide \$1,000 in cash in my home for safekeeping, I will think twice. However, I ended up finding the money thanks to you. It was right where you thought it would be, hidden in the armoire in my bedroom. Thank you so much!

Dear Martha,

Thank you so much for all of your help and guidance. I appreciate your comments, which put me at ease. What you said about my blood pressure is right on- I tend to be a little borderline, so I need to keep an eye on that. Thanks also for letting me know that I "have a lot to live for." This was very comforting.

Your readings have given me incredible insight and reassurance and have shed light on a lot of issues that I have been dealing with. Your readings also have reminded me of the many wonderful things that I have to look forward to and have given me practical information and insight on how to overcome many obstacles that I have been dealing with.

I was able to take the information and recommendations that came up during the session and apply them to my life with great success and I have been able to overcome much anxiety and worry. Many thanks again! Have a wonderful day.

Love and blessings,

Hi Martha,

I feel it was a wonderful reading. You have really loving energy. How incredible that you asked me if I feel like no one listens to me. I say that almost on a daily basis. It has been a feeling I've had for awhile. Thank you for sharing that with me. Amazing. You are so blessed and it was such an honor working with you. I will keep in touch.

Be well,

Hi,

I have just seen your video on Youtube and I am inspired. I totally believe your recollection and it has brought a total sense of peace and tranquility to me.

Please write a book. You have a powerful mind that tells things in a very gentle way that makes one remember. It's as strong as one famous channel I know and yet different.

Thank you for sharing these gifts.

God bless,

Sohail

Martha,

Wow! My email reading was simply amazing! Despite having only spoken for a moment on the phone, and exchanging a few brief e-mails to schedule the reading, you were able to hit upon all of the important themes of my life. This was my first intuitive-type session and I was blown away. I had a friend read it and she too, was blown away!

As you probably saw in the reading, I am a strange mix of both mystical and skeptical, so this is something I've always been a bit hesitant to try, but not totally closed to. The fact that it was through email and that we had very minimal communication before hand makes it all the more amazing how many direct hits there were. And it wasn't just the "hits", it was the overall feeling of it- it was me.

As for the details- all of the past lives you mentioned I recognize very much, as part of who I am. Your use of the quote "not your average earthling" jumped out at me and also your mentioning a connection with the stars, since I am fascinated with the universe.

I am married to a woman with two girls who is a dyed blonde (you said "blonde?"). The reference to "dance and sing" also connects as dancing is something I had identified earlier in life as something I needed to do and I actually signed up for a dance class at one time, although I ultimately stopped going. The connections go on and on- the only things that don't connect yet, are the references to Brazil and the Philippines.

I think as far as the career question goes, you definitely hit on the spirit of my question.

You will absolutely be getting referrals from me! I'm sure there is another session coming in the near future, once I integrate this one and figure out what my next questions are.

Thanks again,

Russ

Puyallup, Washington

Hi Martha,

Thanks for the very insightful reading and advice. My monkish, rather cloistered past has come up in other readings, which confirms your deep connection to Spirit. Your profile of me seems quite accurate: an inquisitive, sensitive, somewhat stubborn guy, trying to break free from his monastic past and do what he really wants to do.

I'm thinking Idaho came up for you, because there's a potential relationship with a woman who used to live there. I may need a relationship reading from you at some point. Given your/Spirit's advice, perhaps sticking with my current high-tech career and part-time Reiki practice, while working towards a career as a hospital chaplain may be the best approach. I will need to get my feet wet and see.

Thanks for your help!

Namaste,

Alan

Martha,

A couple of things you said in the reading, that did not make sense to me at the time, now make sense. You asked if I was short of breath. I said no, but that I had been swimming and I possibly was tired from that. However, I do have problems with breathing resulting from a level four cervical fusion on my neck. (When I look up my windpipe (trachea) is 14 millimeters; when I am in a neutral position, it is 4mm, and it closes off when I look down). I have learned to live with this.

Regarding someone with initial G that you tuned into in spirit, my father's name was Glen. Also, for R or Robert that you picked up on in spirit and seeing him riding horses, he was my favorite uncle and godfather. My father and Robert were brother-in-laws. I asked my stepmother if she knew if my Uncle Bob rode horses in the Boefer patrol in Texas and she thought that early in his career he did, as you indicated. You were also accurate in specific situations regarding family members, etc.

Thank you,

Jeff

Hello again, Martha!

WOW! It's so wonderful to have someone I can TRUST to talk with. Your first comment regarding my personal situation was amazing. Particularly since I had initially thought about putting that very question on the list, but then decided not to. So what happened? The very first thing you said, answered that very question! That says that you're the "real deal" and I'm so thankful to have "found" you. I'll be back, that's for sure! Thanks!!

You are truly gifted and are truly a gift to the world!

Sincerely,

Bill

Bettendorf, Ohio

Dear Martha,

It's so nice to hear from you after all this time. I tell the story of how insightful you were for me a lot, particularly your prediction that I would be doing a lot of speaking. I now spend three months a year training veterinarians (and sometimes just cracking open their minds a little), around the world.

Right now, I'm in Hong Kong finishing up a session. You also said I would be a "citizen of the world" and you were right. I've been to Italy, Germany, Taiwan, Hong Kong, Singapore, Denmark, all over the USA, Brazil, and England, just to name a few spots. So you called that one right, also.

My wife's name is Karen. You foresaw her arrival in my life, too. Around the time Karen was thinking of moving to Portland, the first time, you told me in a reading that I would soon be in a relationship. You felt she was blonde at first, then changed your mind, then changed it back, then gave up and said "there's something about her hair."

Karen never showed up that summer, because she decided to move to Seattle instead. But she interviewed for jobs in Portland, and was at the same time thinking of dying her hair blonde to save her marriage by perking up her husband's interest. She decided not to, in the end, and stayed a redhead.

We worked all of this out after we were married, so I didn't have a chance to share that with you, since by then we'd moved to Canada. Again, you hit the nail on the head. So, there you go! Nice work!

As far as I'm concerned, you're the only game in town when it comes to helping people out in this fashion. Now that I know where you are, I'll send you even more referrals.

Until next time, all the best..

Hi Martha,

I've been on an NDE kick lately and your YouTube video, recorded at IANDS, is my favorite. I love your energy and I hope to hear from you!

Best,

Pete

Martha,

I listened to your video "In the Realm of God" and the way that you explained your NDE experience. I have listened to other videos on NDEs and they all pretty much say the same thing. However, you explained your NDE in a way for people to better understand the experience and give them hope. Thank you for your time.

Best regards,

Kevin

Hi Martha,

WOW, I was really touched by your YouTube NDE video as I have been, in recent weeks, searching for ways to connect my "heaven on earth" experience; my desire is to walk and live in the love and light experience.

Brian

Hi Martha,

I have watched several NDE YouTube videos and each one was uplifting, but yours really stood out for me. I felt like you were talking directly to me.

Have a great day!

Martha,

You sure are making a difference out there! I truly loved the part of your NDE video when you expressed that this is all so much bigger than any religion or belief system. It sure is.

I just felt called to write to you because out of all the NDEs that I've heard, yours is the only one that matched my internal knowing. I've always known that I will one day fly through the universe and cosmos, so hearing your words really brought great joy and smiles to me.

Thank you so much!

Jeff

Dear Martha,

Dear Martha,

Thank you for the tape from our session, which I played yesterday on returning from Scotland. The reading was very helpful. It calmed me down a lot and helped me with the long journey the following day.

Dad did have bedroom slippers by his bed. Also, I bought a box of Vicks VapoRub and the directions for children, stated to gently rub away the symptoms of your child's cold with your tender touch. That was very touching for me, given the explicit nature of what you picked up on from my past, from my dad now in spirit.

Thanks once again, Martha. I feel as if I have been given a lot of unseen help this last week. Thanks for responding to my great need. Much appreciated.

Love,

Martha,

Thank you so much for the reading today. It was so wonderful to hear so much from Hannah in spirit. I wish I could see what you saw. It helps me to hear her say what her soul's mission is here on earth and the amazing work she is doing now.

Love and hugs,

Janet

Dear Martha,

I wanted to let you know that the reading you did for me was wonderful. You actually answered my questions before I asked them! The things that you told me have brought a sense of peace and healing into my life. I think it was destiny that I found you. You are so compassionate and understanding. I feel you are an amazing soul and all who talk to you are blessed.

Thank you for everything,

Carmen

Hi Martha,

Thank you so very much for the wonderful reading you did for me today! I felt the most beautiful and loving energy when you were tuning into my guides and angels as you began the session. I especially loved all the information you channeled in the beginning- it came through so beautifully! I know that you were receiving accurately, because some of the details overlapped what I have been getting from my own sources (like the bits about finding a balance in this life, reminding me to take time to look after myself, and information about my diet).

I loved all the insights into some of my previous lives, since that's an area I haven't delved into much. My own guidance has told me that I've been a healer in many lifetimes before and you certainly verified that (without any input from me!).

I also appreciated all of the practical and loving guidance you included; it will be very helpful as I continue on my path; I really appreciated the message that came through you from all of my guides — it helped me to know not to worry too much about the “wrinkles” over the past days, because I knew that no matter what my day looked like, I was still on the right track. (Not to mention the beautiful energy that came through with it all, which also helped!) I am looking forward to receiving the tape so that I can listen to the reading again!

Much love,

Christina

I just wanted to let you know how I've been doing. I've been feeling so much better spiritually. I really do feel lighter, and much more open. I swear I can feel God's presence more and I'm straining to hear anything he has to say. Speaking with you really seems to have opened something up and let me be much more receptive. Maybe it was just being able to tell you all I feel and believe, and letting those words be real and in the open and not just inside of me.

Thank you!

Megan

You will be pleased with my comments. You were right, I am a highly sensitive being. I have always felt that I am different, I am a loner, and my mother has passed on. (It was a surprise to hear she was there for me). You picked up on people with initials B, J, and M, and here they are... (edited out due to lengthy comments). You also said that there was a female in spirit. This is quite easy, because it is most likely my cousin Martha (yes, Martha!), who died about two years ago at age 96. She was always very good to me as a little boy. I have only good memories of her.

You mentioned something about prison in a past life (and vibration now). Even in this life, I have spent time in prison, in east Germany. (The West German government literally bought me out of prison, paying for my release as an act of humanity).

About my old cottage, you were right in that more than one person has been involved, there have been

structural/plumbing issues, and yes, an old lady lived there in the past.

Thank you once more and kind regards from,

Reiner

Oberkircher, Radeberg, Germany

After hearing the tape, you really answered all of my questions. You gave me peace of mind and tranquility in connecting with my father. Thank you for everything. You are really a blessed spirit and a kind human being. I hope you place this email in your blog.

Bless you, peace, and love to you,

Cristian

The knowledge and advice that you so kindly shared with me in our session has already begun to really play out in my life and I am just absolutely loving it! I just have to say that I still feel really enlightened and joyful from our session. I feel more open to life, if that makes any sense- more calm, more peaceful, and also very confident towards my aspirations. I had been wondering for awhile what an "awakening" actually meant and now I think I get it (in my own perspective anyhow).

I, um, just feel more aware of the life around me, how my consciousness affects others, and I am more susceptible to the natural coincidences in my life. Most of all, I feel very excited about the "other side" and I can't wait to further my research on it. Well, that's all. I'm so glad I came across your video on YouTube! Thank you, Martha.

Love,

Ginny

I am so blessed to have found you. My time with you was the most inspiring experience that I have ever endured. There are not enough words to explain how much light you have brought to my life. Our session left me with a profound joy that has absolutely lifted my spirit and has given me a sense of confidence that I have not felt in a long time.

I've had readings done in the past that I found useful, but never satisfying to my soul and I really feel that you touched and took me to a place that I have so much longed for. My mind feels at peace and the knowledge that you shared with me really helped me to identify with my inner self; everything we talked about really helped to put the synchronicity of coincidences in my life into plain perspective.

In short, wow, you helped make sense of so many things I have often wondered about throughout my life. I can't express enough gratitude; to me, our session together was a new beginning to my life of spiritual exploration.

Lots of love,

Ginny

Thank you so much for an amazing reading! I don't know that I've ever had someone come through with so much clarity in a reading before. You made me feel at ease immediately, and the information, along with your support, helped me to make sense of so much that's going on in my life.

Thank you for sharing your gifts and your light with such truth, compassion, and joy. I'm really looking forward to receiving the tape, so I can listen again and again. You have such a clean, clear energy, and I appreciate you deeply!

Twelve years ago when I had a session with you, you saw a strong association for me with a large, beautiful garden. I emphatically said "No! That can't be me. I can't even grow a house plant." You insisted, saying you clearly saw two women, possibly nuns who worked in this garden with great care all day long. They were amazing gardeners, possibly to the point of obsession. We concluded it may have been a past life. Of all the things we discussed, this was the only thing that didn't make sense to me.

Flash forward 10 years. We purchased my current home, to discover that the little old spinster sisters who had lived here for thirty-five years were absolutely obsessed with the garden and worked in it every day until they had to leave at ages eighty-three and eighty-nine years old. They were very Catholic, never married, and all of the people in the neighborhood referred to them as the "sisters" or the "nuns."

I now have fallen in love with the garden and I am learning how to be a gardener. About a year after purchasing the house, your reading suddenly came back to me and I fully realized it was 100% accurate!

I've been thinking of you and I will be in touch,

Kristin

I slept so well last night, thanks to your reading. I feel so lucky to have found you and I really appreciate all the extra time and energy you gave to me. You have no idea how much you helped me push that lingering stuff out. Everything settles into a different perspective. I just feel so content and I want to share it with everyone, so know that it's being passed on. One final note, you have a great sense of humor!

Love and prayers to you,

Nancy and I wanted to say "Hi" and let you know that your name comes up often in our conversations and experiences. Many of the things you mentioned to us in consultations have come to be, and somehow, hearing them in advance from such a gentle and gifted woman as yourself, allows a better understanding and certainly an easier acceptance of life's twists, turns and winks. We wish you the best that can be.

My reading with Martha gave me tremendous encouragement, a sense of peace, meaningful insight, and guidance that has proved invaluable. Her advice regarding my health, personality traits, and life struggles was so exact; you'd think she'd known me for many years. I sincerely believe that she has been given a true and divine gift to share spiritual truths and God's love in a unique way.

Thanks for speaking with me on Friday. You were "right on" for both my daughter and myself. Amazing how you can do what you do. I've been thinking about the session ever since and I'm very happy you record everything. I'm looking forward to hearing the tape when it arrives.

Thank you again,

John

I just wanted to thank you and our "friends in spirit" for the awesome work that you do. Sorry, I can't

think of a more fitting word. I may have been okay without ever having heard of you, but talking to you sure makes things easier and so much more hopeful. In whatever profession I end up in, if I could ever inspire people one-tenth as much as you have, I'd be a very content person.

I am so glad that you tape your sessions because each time I hear them, I hear so much more in them. Some things that you said resonate differently at different times and some things I did not even remember your saying during the session. It's very helpful and always a joy to talk with you.

So here's from one Sagg to another, you're the best. I can say with certainty, that you are the one person that I am grateful for your influence in my life. I am glad you chose to stick around on this planet with the rest of us.

Many thanks,

Nana

Thank you for your wonderful presentation. I appreciate that you spoke from your heart and intuition, not just from your head! You can be an engaging story teller-funny, poignant, insightful, humble, and articulate. I was captivated watching you; an inner grace and beauty seems to surround you as you speak. You were truly being authentic and not saying what you think we wanted to hear or what you've heard others say.

There were moments during your sharing when the rest of the room just faded away and I was right there with you on the other side! Thank you for the opportunity to travel to parts of the other side I had not seen before. I appreciate the old fashioned values of respect, compassion, kindness, and consideration that were reflected in your sharing.

I was very moved by your story. You are truly a compassionate soul. I hope I have not said anything that offended you or inflated your ego! I just tell others when I am touched, moved, have gained valuable insights, or have felt inspired with loving feelings. Perhaps this will help others!

Love and light,

I just wanted to thank you for all of the help you have given me over the years. The beautiful readings and your encouragement have really helped my confidence grow and have helped me to expand spiritually. Whenever I listen to my old tapes of readings, I see what great information I was given and how it came to fruition.

I remembered asking you about my mother's health. I was concerned about our move and her still being in Portland. You said you were getting the number three. Whether three days, weeks, months, or years you weren't sure, but the number three came up. Then you went on to tell me that we were not to feel guilty if we moved, meaning we would not be the cause of her death.

It was three weeks and three days after my appointment with you, that she died. I found great comfort in your words about our move not causing her to give up and die. The timing in seeing you and hearing that was vital!

Take care,

I wanted to thank you in a letter for taking the time to help me. In November, I called you in a panic looking for my cat, Darby. You were in a hurry that evening but you promised to call me back later. You did and I am grateful because you put my mind at ease.

I ended up finding him about midnight that night. He had been trapped in my neighbor's garage for five days. You had said he was stuck somewhere and that he was trying to get back to me. It was true. I appreciate your time and effort. Thank you.

Sincerely,

Shannon

Thank you so much for your assistance and guidance. I am more in touch with my inner voice now. A person has come into my life that you mentioned in our session. I just wanted to say thank you. Your guidance and words were of great comfort to me. You're right; whenever I listen to the tape, new things come up. I feel really good and I am getting stronger and happier each day.

Thank you for your help. It had an impact I did not expect and I am glad I came. I am sure I will see you again.

Take care,

Thank you so much for the reading. I feel more empowered and hopeful, and less alone and I feel loved. Thank you for being who you are and for sharing your gifts with others.

Sincerely,

As always, whenever I talk to you, I am left with wonderful feelings and thoughts to understand and to act on. Thank you for the reading last week. You confirmed many things, shed light on other things, and gave me things I need to do. I wanted you to know that something you said, my mother had also said. Thank you for that.

God bless always,

Connie

Thank you so much for the reading. I feel more empowered and hopeful, and less alone and I feel loved. Thank you for being who you are and for sharing your gifts with others.

Sincerely,

Julie

Thank you for working with me recently. Your voice is very sparkling and clear. Major powerful beings are present in your interactions. I have often had compunction to go to the desert, as you suggested.

Love,

John

You had a sense that my father would die in the summer months and that happened last June. You also told me that my grandmother was around me in spirit and since then, I've felt her presence as a wise being. I am hoping for my daughter to have a session with you.

Thank you for taking me through a meditation in January. It was amazing! It enabled me to clear my head and to let go of a lot of unimportant business that I had put so much value in. I still feel the effects of the release. I am ever thankful for your wonderful guidance. I do look forward to meeting with you another time for another reading.

Love and peace,

Pamela

The chocolates have arrived! You deserve the best there is. Enjoy! Thank you forever again for taking me all the way through my guided imagery. It was VERY releasing and my life is about to change! It has and will continue to. Your energy is very strong and beautiful. I thank you for allowing me to share this experience.

Love,

Pamela

After our session I felt much more confident in myself. You practice with a lot of spiritual ability and help others to get through their troubles.

Very truly yours,

Vincent

I just wanted to write and to thank you for the reading you gave me in late January; it was wonderful. I want so much for my life, to go so far, and to do great things. Your reading gave me the added push to invigorate my confidence. For that and just the experience, I thank you so much.

Sincerely,

Bart

It was wonderful to meet you and I really enjoyed our session. Thank you for your time and understanding.

Sincerely,

Nicole

Thank you for taking such a long time with me on Monday. I appreciate the care with which you worked with me and answered my questions. I've listened to the tapes again and there is quite a bit to mull over!

Thanks again,

Kirsten

Thank you so much for all of your guidance! It's been a great help to me in the last few months! I really appreciate it!

Love and light,

Lori

I am really looking forward to speaking with you on Tuesday. I've listened to the tape of the last session over and over again and each time I hear it, I hear something new in it. Sometimes I can't help crying. I know you already know this, but what you are doing is giving so many people, like me, help, and clarity.

Thank you again, in advance!

Nana

Thank you for your help and concern. You are a true friend and an angel sent from God.

It was good talking with you. I am so thankful you were given a chance to stay with us on earth awhile longer.

I want to thank you for the reading you gave me in September. It helped me tremendously and you were so right on about how fast and quickly my life was changing!

It was great talking with you as always. You described what was happening with me so accurately. I felt much more at peace and calm the evening after the reading and I slept well. I am so grateful for you.

It's kind of wild; new doors are opening. I am feeling a new love or that some of my internal emptiness is filled. You mentioned that we are where we need to be. I am learning to slow down, to look at my options, and to channel this gifted energy. You helped make this possible. I know you are happy for me.

I was at New Renaissance Books last Friday and spoke with you at your workshop. I was so excited to be there I could hardly sit still. Thank you for your time. To be around people, hearing their experiences, and learning how to develop these abilities is a great help.

Sincerely,

Tracy

I am sorry we did not know you sooner. You are a wonderful spirit. We all appreciate your willingness to help us and your sensitivity to our feelings.

Fondly,

Sandra

May your days be filled with light as you bring the light to others.

Jane

Thanks for inviting me to your solstice celebration and spiritual clearing. I am starting 1990 with lots of freed energy.

Love,

Penny

As you indicated to me back in 1984, my life was about to take a radical turn and it did. I am so glad we had the opportunity to meet, no matter how brief. It seemed to be the quality of contact that is never forgotten and stays in touch at another level beyond normal everyday awareness.

Much love,

Linda

Your wisdom in your "old" age is quite together. Through prayer I am still "knocking" out the pastels and it is paying off. Seems in slowing down, I am running into experiences quite profound. Funny how my goals are becoming clear after two years of confusion. Would like to give you a big hug.

Thank you so much for your time, energy, and love. Please accept this small gift for the emergency phone call today. You helped me so much! I'll call for an appointment as soon as I get on my feet! Thanks again!

Love,

Brenda

Hope this card gets to you. I've never felt so full of direction.

I always feel really joyful, happy, and loved after I have had a session with you. You totally connect with/to the soul, which in turn, helps me to remember my essence and who I really am. Which, it seems to me, is the most important aspect of your work. (All the words and information about the physical plane is just for our heads). Your sessions are very positive and full of light.

I thank you again for your help and guidance. After I had a session with you, I decided to apply to school and did it within one week! I listen to the tape of our session to remember and to get in touch with my feelings again.

Also, I asked my mother about my grandmother's death. My mother told me that my grandmother had had a kidney problem which surprised me because I remember what you said in the session. I want to tell you that I got the facts from my mother. So true.

Love,

Machik

I was happy to talk with you yesterday! The last time we spoke you made a wonderful impact on me. I felt spiritual! I look forward to speaking with you again on Saturday.

With warmest best wishes and in Sai love,

Bali

The diet info is especially exciting to know what has been dragging me down.

Thanks,

Bobby

You've helped me sooo much so far. I want to thank you for your advice. Thanks to you, I waited on moving back

in December. By waiting, I met two wonderful women whom I moved in with. I feel that I am in an incredibly nurturing and caring household and environment. Thanks for everything.

Susan

I really enjoyed our meeting. I felt so cleansed and like I was getting in touch with who I am. This was a true experience in the direction of getting more and more in touch with the real me.
